

100 TELESCOPES IN THE PARK

On September 25 and 26, astronomy organizations across Southeast Wisconsin are getting together for an event like no other! "100 Telescopes In The Park: A Celebration of the International Year of Astronomy" will feature telescopes of every imaginable shape and size, all set up and ready to show the wonders of the night sky to the public at large. It's going to be an astronomical gathering!

In addition to 100 telescopes, there will be exhibits and activities for young and old. We will begin the afternoon with our Telescope Clinic -- a perfect opportunity to bring your own telescope to have our experts give it a little TLC and help you learn about using it to its best potential.

When

September 25 & 26, 2009

Where

Greenfield Park, Milwaukee

What

Telescope clinic 6-7pm
